Public necessity requires that the 30-day comment period of Public Utilities Code Section 311(g) be reduced so that the Commission may collect the revenues as set forth in this resolution as soon as possible. The Commission concludes that a reduction in the 30-day review period by 2 days will not compromise the public interest or any party's rights. Accordingly we reduce the comment period for this resolution from 30 days to 28 days. Parties who wish to file comments on this resolution may do so no later than November 19, 2002.

Rainbow 500 KV Interconnect Project.

**Summary: AUGMENTATION REQUIRED.** On November 15, 2002, Jeanne M. Sole, Regulatory Counsel for the California Independent System Operator Corporation (ISO), met with Kevin Coughlan, advisor to Cmmr. Peevey. Also present were Lynne McGhee and Laura Krannawitter, advisors to Cmmr. Duque, Manuel Ramirez, advisor to Cmmr. Wood, Belinda Gatti, advisor to Cmmr. Brown, Aaron Johnson, advisor to Pres. Lynch, and Robin Smutny-Jones, Director of State Affairs, and Jeffrey Miller, Regional Transmission Manager in the Grid Planning Department, for ISO. Written materials (attached to the notice) were used. Sole stressed that ISO supports the outcome of Cmmr. Duque's alternate because it is important to proceed towards the identification of alternatives and their respective environmental, social and aesthetic impacts to maintain the reliability of the San Diego area. Sole noted that ISO supports some portions of the proposed decision (PD); in particular, the PD's use of the N-1/G-1 reliability criteria. Miller referred to the use of probabilistic criteria and confirmed that such use has been limited to situations where one radial line is under consideration; that people have been unable to agree on a methodology for use of a probabilistic analysis more widely. Sole stressed the ISO's concern with an automatic cut off deadline of five years. Smutny-Jones noted that ISO has a long-term vision of upgrading the bulk transmission system. Miller explained this vision. Sole stated that the Commission's procurement decision did not provide a justification for not proceeding to phase 2. Miller noted the ongoing uncertainty about the future of Otay Mesa. Sole stressed the importance of taking proactive steps to address San Diego's reliability needs.

11/25/02      R01-10-024      Order Instituting Rulemaking to Establish Policies and  
Cost Recovery Mechanisms for Generation  
Procurement and Renewable Resource Development

**Summary:** On November 20, 2002, Bill Stock, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present were Les Guliasi, Director, Regulatory Relations, Roy Kuga, Director, Gas and Electric Supply, and Bill Manheim, Attorney, for PG&E. Manheim stated that the plan approved by the Commission needs to include a trigger mechanism to ensure that cost recovery timely tracks procurement costs incurred. Kuga stated that approval of the plan constitutes up-front approval of the procurement costs and that PG&E's reasonableness exposure is limited to the utility's cost of administering the contracts.

**Summary:** On November 22, 2002, Jenny Wong, Director – Regulatory Affairs, Verizon California Inc. (Verizon), met with Lester Wong, advisor to Cmmr. Peevey, in San Francisco. Written materials (attached to the notice) were used. Wong expressed great concerns on the unbundled network element rates recommended by the draft decision (DD), particularly the magnitude of the reductions on loops and switching costs. Wong stated that the proposed reductions were unreasonably steep. Wong explained that these rates, if adopted will inflict immediate harm on Verizon. Wong also noted that the DD is incorrect as it ignores a more recent UNE order issued by the Florida Commission.
